

CITY OF WASHINGTON, ILLINOIS
Public Works Committee Agenda Communication

Meeting Date: August 2nd, 2021

Prepared By: Brian Rittenhouse – Utilities Superintendent

Agenda Item: CIPP Sewer Lining Project

Explanation: Council approved \$300,000.00 for CIPP Lining this Fiscal Year. Council approved Hoerr Construction as an approved contractor to do CIPP Lining. Staff has identified sewers mains that need to be lined. Hoerr has provided an estimate of \$156,711.00 for the identified sewer mains. This is an estimate based on approximate Sewer main sizes, footages, service connections, and end seals. Depending on final lengths, connections, etc., the final price could be different than the estimate. We do not feel the final amount will be far off the estimate.

Fiscal Impact: Estimate of \$156,711.00 With the understanding the final price could be different.
Staff Budgeted \$300,000 for CIPP Lining in Account 501-000-800-3000.

Recommendation/

Committee Discussion Summary: Staff recommends contracting Hoerr to complete the Project.
Not to exceed the budgeted Amount of \$300,000.00.

Action Requested: Move the CIPP Sewer Lining Project to City Council Consent Agenda.
