

CITY OF WASHINGTON COUNCIL REPORT

May 3, 2024

CITY ADMINISTRATION – Jim Snider

- **US Route 24/Nofsinger Road Lane Closures**

The Nofsinger Project is moving right along. The traffic control subcontractor, Roadsafe, placed two message boards up on 24 giving notice of lane closures beginning on May 9th weather permitting. The two inside lanes (east and west bound) of 24 and the median area will be closed to traffic to complete work in the median. Nofsinger traffic will no longer be able to go through the intersection or turn left at the intersection. US 24 traffic will no longer be able to take left turns onto Nofsinger either.

- **APWA Award for the Hilldale Avenue Reconstruction Project**

I was honored to represent the City at Thursday's American Public Works Association – Illinois Chapter Annual Award Banquet in Peoria. We were awarded the Public Works Project of the Year for 2024 for transportation projects of less than \$5 million dollars. Project consulting engineer Hutchison Engineering and project contractor Stark Excavating were also recognized in the presentation.

Congratulations to City Engineer Dennis Carr and Engineering Technician Ross Fuller for their successful oversight of the completed project!

- **Sale of Water to ILAWC**

As I reported this past week, Illinois American Water (ILAWC) received approval from the IEPA to begin using our water as per our agreement that was approved by Council in 2022. The water sale began last Tuesday. They set up a trailer at our interconnect where they've begun injecting chlorine and flushing hydrants in their system to perform a systemwide chlorine burn. The residents in the area received a code red notification of the change of water supply from ILAWC.

- **FY25 Community Project Funding Program Application for Representative LaHood**

As I reported to you this past week, The Office of Representative Darin LaHood sent a request late on April 25th for any submittals for the FY 2025 Community Project Funding program. This is a specific funding request for discretionary funds targeted to a specific project or entity. Each congressional office is limited to 15 Community Project Funding submissions to the House Appropriations Committee per fiscal year. Subsequent inquiry by staff of the request of submittal was further clarified by the Congressman's Office this last Tuesday. The quick turnaround requested by them is dictated by the House's deliberations. Submitting an application to Representative LaHood's office does not guarantee submission to the Appropriations Committee or guarantee funding. The city previously received funding through this source in FY 2023 for the Nofsinger Road realignment and Police Evidence Building projects.

Time was of the essence to apply, as applications were to be submitted to Rep. LaHood's office by 4:00 pm on Wednesday. Staff choose two items we have previously discussed – the Water Tower #3 and the Lakeshore Drive extension as two viable options. Work has previously been done for both projects, which will assist with the urgency in which to apply, should applications be submitted. As was the case with the Nofsinger and evidence building projects, the standard federal share is 80% of the eligible costs. Lakeshore has an estimated cost of \$7 million and Water Tower #3 has an estimated cost of \$4.5 million.

The council would need to budget for the local match for either of these projects in FY26 should funding be awarded.

- **Resolution Approving a Collective Bargaining Agreement with the City's Public Works Union**

I'm pleased to report that the representatives of our public works union have ratified a proposed three-year successor collective bargaining agreement beginning May 1, 2024. The proposed agreement is before the Council as an action item on next Monday's Council Meeting Agenda. The summary of economic aspects of the agreement are as follows:

- Base Salary increase of 3% the first year, 3% second year, 3% third year
- \$6000 one-time payment to the union members to offset the impact of the generational inflation spike over the last two years
- Adding Juneteenth as a holiday
- Increasing the number of Personal Days from 1 to 2
- Adding the \$30/month "Gym Membership" reimbursement
- Increasing the life insurance per employee to \$50,000 (currently \$20,000)
- Added stipulation for employee needs to obtain CDL within 6 months of employment
- Increase in Mechanic II position wage by 4.66% with increased responsibilities (CDL training). Increase in Street Foreman pay by 5.12% to reflect IPSI Certification. Increase in Distribution & Collection pay by 5.08% to reflect Class D Collection System Certification. All three increases will be applied to the new 3% COLA rate of pay.
- Raise Seasonal Grounds Maintenance pay as follows since pay classification starting pay is below \$15-hour minimum wage rate (effective 1.1.25). Beginning January 1, 2025 the minimum wage is \$15-hour.

ENGINEERING – Dennis Carr/Ross Fuller

- UCM has continued to progress with work throughout the future intersection of Freedom/Cummings. New concrete pavement has been poured for part of the north bound lane on Cummings. Concrete has been poured back for the southern section of the rec trail as well as half of the Hub's approach. New curb and gutter has been installed for this corner of the project as well. We anticipate that the final phase of concrete work for the northbound lane to begin next week.
- Gensini Excavating has been working on the new storm sewer installation for the Nofsinger realignment. Message boards have been placed on RT 24 to inform residents of the lane closures that will take place next week. Lane closures on RT 24 are expected to be in place until September.
- Lonewolf Concrete has completed our last sidewalk and curb capital improvements for the 2023/24 fiscal year. A total of 836' of curb and 783' of sidewalk was replaced on Elm, Melvin, and S. High along with four new ADA ramps. The HMA patchwork between the existing road and new curb would not have been completed in a timely manner without the help of our Street Dept. A big shout out goes out to them!
- The Catherine utility coordination meeting was held this week. All utility conflicts have been discussed and will be addressed/ moved in the coming weeks. Ameren may be on-site as early as next week to move the gas. Stark plans to begin the reconstruction project the first week of June. An informational letter will be delivered to the residents next week explaining the project in its entirety.
- The Felkers Drainage Project was originally schedule to have it's bid opening this week. We have a few items we want to clarify in the project so we are needing to send out an addendum to the plans. We hope to have the award on the second council meeting in May.
- Attended this year's ADA/PROWAG training in Springfield. This was a class through IDOT that provided us with all the new ADA changes and updates. We found it very beneficial.
- TWM is updating the drainage plans southeast of the square and once it is updated, that project will be put out for bid as well.
- Strand was originally hoping to have the Lagoon feasibility study done by May 1. They have let me know they think it will take another 2 weeks. They did inform me that both sites would be needed to provide sufficient excess flow storage but needed to work out optimizing the layout and depths needed. They are also working through what pumping will be needed at each location for the lagoons to work properly. They are unable to find groundwater information for the farm east of the plant site. Staff will reach out to the land owner and IMEG to determine if there is a chance to get soil borings done in the near future.
- We have finally received information and approval back from IDOT to place the Engine Braking Signs. IDOT's sign requirements have been conveyed to the Street Department for them to order the signs. Once the signs come in, we will

have again have to coordinate with IDOT on allowed installation locations that do not visually affect their current signage along the Bypass.

FINANCE – Joanie Baxter

- Preparation of the Compensation Spreadsheet for the new fiscal year.
- Assistance with the claim for fire damage at the Evidence/Public Works building.
- Completed grant reporting for the period ended 3/31/2024 for the Department of Justice grant and a final report for the DCEO Public Safety Equipment grant.
- Completed grant reporting for the American Recovery Plan Act (ARPA) grant for the period ended 3/31/2024. The report shows that the entire allotment was used to offset Public Safety personnel and administrative costs as allowed by the revenue replacement provisions. A closeout report will be due sometime in the future, but guidance has not been released on this process.
- Exported all operational budget detail from ClearGov and imported to Tyler with the assistance of Tyler since this is the first time I have done this process. Installed the budget for FY2025 to Tyler.
- Reviewed Payroll Action Forms for FY2025 based on the new pay plans. First pay of the new fiscal year will be May 10th.
- End of fiscal year/beginning of new fiscal year discussions and processes with Jeanette.
- Jill processed and I reviewed payroll for April 26, 2024.
- Utility Billing (April 13 – May 3, 2024)
 - A total of 279 cutoff notices were processed for March billing
 - A total of nine cutoffs were made for delinquent March bills
 - A total of nine delinquent notices were sent for March disconnects
 - A total of ten payment arrangements were made for March cutoffs
 - New accounts and account closings processed:
 - 18 ins
 - 18 outs
 - Leak detection through RNI and Sensus Analytics software – 65 leaks were caught and residents/businesses notified
 - There were 19 new residents in April

HUMAN RESOURCES – Maureen Chambers

Out of Office

PLANNING & DEVELOPMENT – Jon Oliphant/Joe Boyer

- Staff submitted two projects to Congressman LaHood’s office as part of the federal FY 2025 Community Project Funding program: the extension of Lakeshore Drive and the construction of Water Tower #3. Notification of the program was given five days in advance of the Wednesday deadline. WT #3 was previously submitted during the FY 2023 cycle for this program and Lakeshore will be submitted as part of the upcoming Surface Transportation Block Grant cycle that will be submitted in June. As was the case with the awards in 2023 for the Nofsinger realignment and the PD evidence building, there is a required 20% local match. Should an award(s) be made, staff would plan on budgeting the requisite match for FY 25-26.
- The May PZC meeting had one case: A request by Roni Roos for a variance to allow an 8’ tall privacy fence in a portion of the rear yard adjacent to her deck (approximately 12 lf) at 1513 Flossmoor. The PZC unanimously approved the variance request.
- The Washington Commercial Building and Property Improvement Grant Program application is live. Applications are due by May 29. Staff will review them and bring each of them to the June 10 Committee of the Whole meeting for discussion prior to the drafting of possible agreements. Several businesses have at least inquired about this program over the last few months.
- Concrete has been poured on the second floor of the brewpub site and work continues to get the space fully enclosed. Plans have been submitted for the replacement of a fire escape for the 114 Walnut building. Minor adjustments to the plans will be made before the work can begin.
- Work is tentatively scheduled to begin on the renovation of the 120 Walnut building. It is tentatively aimed to be completed in September.
- Staff continues to work through the legal process on pursuing the demolition of the 501 Walnut structure. An interested citizen has approached the City about purchasing the property and restoring the building. The City will continue

following the legal process unless a sale and demo or restoration of the impacted portion of the building could be done prior to the City's involvement with a demo.

- A building permit has been issued for a new multi-unit commercial building on Cruger behind Sleep Inn.
- Staff along with a couple of Chamber representatives had our quarterly meeting with PACVB staff. Particular focus was given to refreshing some of the businesses that are highlighted on their website and helping to ensure that more upcoming events are listed. The 2024 1Q report is attached.
- We received a Washington Tourism Grant application for the Washington BRIDGE Education Foundation's fourth annual Paint the Path event. It is scheduled for June 1 coinciding with Good Neighbor Days. An award of \$1,250 has been made for the event. Participants have come from around the area and as far away as Indiana in prior years.
- I attended one of the days of the virtual Illinois State Section APA conference and part of the combined IEZA/ITIA conference.
- A student at the University of Illinois who is from Washington will be shadowing staff for a little over a month starting in mid-May to learn more about local government and how the department functions.

PUBLIC SAFETY – Chief McCoy/Deputy Chief Stevens

- For awareness purposes we note the speeding citation issued with the greatest difference between the posted limit and the cited speed during this reporting period: 62 MPH on N Main at Easy (30 MPH zone).
- Negotiations for a new City / WFD contract: initial meeting held.
- Washington PD and PMEG executed a search warrant at a residence in the City. CIERT breached and secured the residence to allow safe execution of the search.
- WPD and Homeland Security Investigations executed a search warrant at a residence in the City, arresting one adult on federal child exploitation charges.
- Although both speed trailers were returned to service for the season, the most recently repaired trailer malfunctioned. We contacted the manufacturer for repair options (or normal source is no longer available). We had the electronics for both trailers inspected and cleaned after the building fire.
- Scheduled two dog bite hearing dates.
- Conducted tour for 16 Cub Scouts and parents.

PUBLIC WORKS – Brian Rittenhouse

- Street Sweeping continues. Staff will start at one end of the town, go through the town and repeat. Service requests will be handled on a priority basis. High priority requests will be completed right away and low priority requests will be on a weekly basis.
- The mowing crew is staying busy with the growing grass. Spring can be difficult and staff will do their best. High priority areas, like BR 24, will be mowed on a weekly basis, if weather allows, and less seen areas will be mowed when time allows.
- The street department will start working on asphalt prep work this month. Asphalt paving will take place in June.
- The asphalt roller has been repaired and delivered.
- Well #11 is estimated to be repaired the week of the 15th. All the parts should be in next week with installation tentatively scheduled to start Monday the 15th.
- The wastewater treatment generator project has been completed.
- Hydrant flushing and maintenance continues but should conclude in the next couple of weeks.
- With the new budget year, staff will review and coordinate projects with the appropriate contractors. Projects and equipment that require Council approval will be presented to Council for review.
