

CITY OF WASHINGTON, ILLINOIS
Committee of the Whole Agenda Communication

Meeting Date: 5-13-2024

Prepared By: Dennis Carr – City Engineer

Agenda Item: Water Tower 3 – CMT Engineering Agreement Supplement

Discussion: A Council member requested further discussion on Water Tower 3. Crawford Murphy and Tilly (CMT) is the engineering firm that is designing the Water Tower 3 project. They have built our water hydraulic model and have also completed the water quality study. CMT has contract remaining to finalize the design of Water Tower 3, but does not have enough fee to present on the Water Tower 3 project. Staff has discussed the project at several past meetings, so further information would likely need to come from CMT as the designer of the project.

Fiscal Impact: CMT has requested a supplement of \$3,000 to assemble a presentation and deliver it to the Council at the next Committee of the Whole meeting in June.

Action Requested: Staff requests discussion pertaining to the Council’s desire to supplement CMT’s Engineering Agreement and have their staff present at the next Committee of the Whole meeting.
