

CITY OF WASHINGTON, ILLINOIS
City Council Consent Agenda Communication

Meeting Date: January 6, 2025

Prepared By: Dennis Carr – City Engineer

Agenda Item: Purchase Authorization – New City Aerial Orthophoto

Explanation: The City’s GIS data is used by nearly every department in the city. The aerial image is the backbone for our City’s GIS both internally and externally. The outward facing maps that the citizens use have the aerial orthophoto as the background. Not only does having a current aerial image provide an accurate illustration of the reality on the ground, but it also provides us with a tool for engineering projects, planning and development workflows, and so much more. We have normally done the aerial work when the county does theirs, but there have been a lot of changes in our community that a new aerial would capture. With so much of our data being shared with the citizens on the Hub Site, we want to keep the aerial as up to date as possible.

Fiscal Impact: \$15,620 will be split between this current fiscal year and next fiscal year and come out of a combination of the general, water and sewer funds.

Recommendation Summary:

Staff recommends approving the Eagleview proposal to supply the City of Washington with a new aerial orthophoto for a cost of \$15,620.00

Action Requested: Approval

Budget Proposal

eagleview™

Proposal for: City of Washington, IL
Project Name: ILCWASH2024- EV Cloud Certified
Quote Number: Q-57727
Contract Term: 2 Year(s)
