This report includes data currently available to the investment manager. Past performance is no guarantee of future performance. Indices are not available for direct investment. An investment product which attempts to mimic the performance of an index will incur expenses such as management fees and transaction costs which reduce returns. We urge our clients to compare MVT statements with those from custodians.

4th Quarter 2020

53 West Jackson Suite 905
Chicago, IL 60604
312-922-1717
312-922-1772 fax
mvtinvest.com

4Q2020 3rd quarter GDP reported at 33.4%. Consumer activity resumed broadly and both business and residential investment showed solid increases. Net exports had a good quarter while government spending decreased with the expiration of COVID stimulus. With this recovery, total US GDP is at \$21.2 trillion, still below \$22 trillion at the end of 2019.

Markets do not like uncertainty and showed volatility leading up to the election. After polls closed 11/3, markets moved upward more than 12% for the month of November.

Pfizer announced on 11/9 a vaccine 90% effective in clinical trials and its share price jumped 15% in the morning, also lifting entire markets on optimism. Pfizer later obtained emergency FDA approval for distribution of the vaccine to the public. Healthcare workers and first responders will have priority access to cover the risks that they face every day. Pfizer is in the MVT Dividend Growth strategy.

Moderna and Astra Zeneca followed with announcements of early success in trials of their COVID vaccines.

In November, the unemployment rate edged down to 6.7 percent. The rate is down by 8.0 percentage points from its recent high in April but is 3.2 percentage points higher than it was in February.

MVT staff had a private tele-conference with Chuck Severson, portfolio manager of Baird Midcap Growth fund. Severson reviewed his strategy through the pandemic, and his ideas for the recovery.

The Russell 2000 index, a small-cap index, had its best quarterly gains in seven years rising 31% in the fourth quarter.

Washington Police Pension Fund Executive Summary 4th Quarter 2020

Activity Summary this Quarter

Beginning Value:	\$ 6,004,085
Contribute & Withdraw:	\$ -
Net Investment Gain:	\$ 535,758
Ending Value:	\$ 6,539,843
Income	\$ 27,374
Management fee:	\$ (6,407)

Since First Month: 01/31/2016

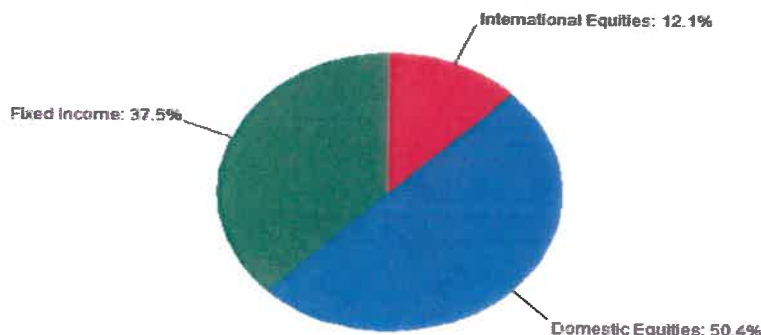

Annualized return	9.43%
Cumulative Return:	53.42%
Net Investment Gain:	\$ 2,327,245

Net Performance this Quarter

Fixed Income	0.16%	\$ 3,868
Equities	14.91%	\$ 531,890
Total Fund	8.92%	\$ 535,758

Fixed/cash:	37.3%
Equities	62.7%

*assets managed at MVT

Portfolio Strengths

Fixed income

Corporate bonds gained 0.7% on average for the period. Longer maturity bond securities had the strongest gains. Yields did rise toward the end of December as the 10 Yr finished the year at .93%.

Equities

After slow markets in October, stocks rallied 16% in November and December after post-election with new vaccine hopes. In a pivot to small caps and value, Janus Henderson at 25%, Nuance at 15.3% and T Rowe Price Small Cap at 22% had gains better than the markets. Tech funds such as BlackRock continued to perform well with strong gains at 23%. International funds had a robust November and exceeded returns of the total US market in the 4th quarter.

Weaknesses

Fixed income

Government bonds were essentially flat for the quarter, not providing any additional returns. The 10 year Treasury hovered in a range of 0.7% to 0.9% for most of the period. The Fed has affirmed to keep rates low through 2021.

Equities

Real estate funds continued to lag the total market, but still showed positive returns at 8% for the quarter. Also, the Lazard Global Infrastructure Fund trailed the total market with fourth quarter returns at 5%.

Strategies

At the end of the 3rd quarter, an indication of strong recovery was exhibited with an annual GDP rate of 33.4%, however this is still lower than pre-pandemic levels. The resurgence of COVID cases and social restrictions gives reason for caution through the rest of winter as the vaccine rollout has shown to be inconsistent. Bond yields have bottomed out and will not provide much income or price increase for the next year. High quality international bonds will be an option. In equities, we prefer companies with steady revenues and strong balance sheets. Dividends will be a definitive alternative for providing income. ESG funds performed well in 2020, as many had better gains than the S&P 500. The technology sector is at high valuations now, but investors are still willing to pay for those names and your Blackrock tech fund has been running out in front of its peers with a YTD performance of 86%. Health care provides opportunities as pharmaceuticals bring COVID vaccines to market. Also, International equities are offering competitive valuations in comparison to the U.S Equity market, and may present some opportunities in 2021.

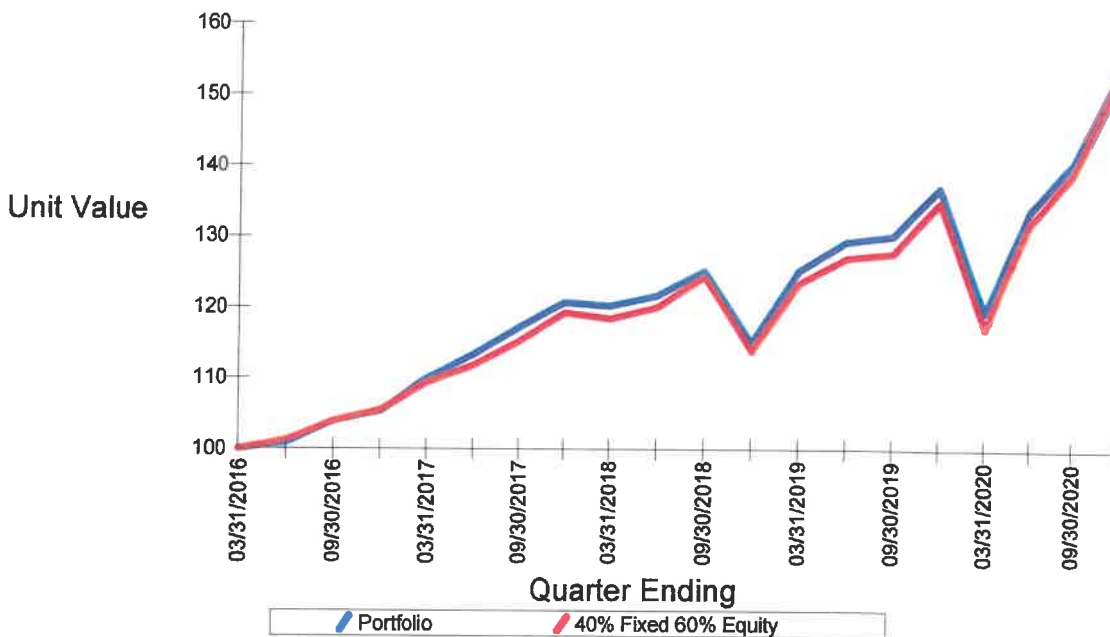

We urge our clients to compare MVT statements with those from custodians.

Past performance is no guarantee of future returns. Indices are not available for direct investment. Investments which attempt to mimic the performance of an index will incur expenses such as fees and transaction costs which reduce returns.

This report includes data currently available to the investment manager. Past performance is no guarantee of future performance. Indices are not available for direct investment. An investment product which attempts to mimic the performance of an index will incur expenses such as management fees and transaction costs which reduce returns. We urge our clients to compare MVT statements with those from custodians.

Manager Information

Tony Kim. Since 6/2013.
Reid Menge. Since 6/2020.

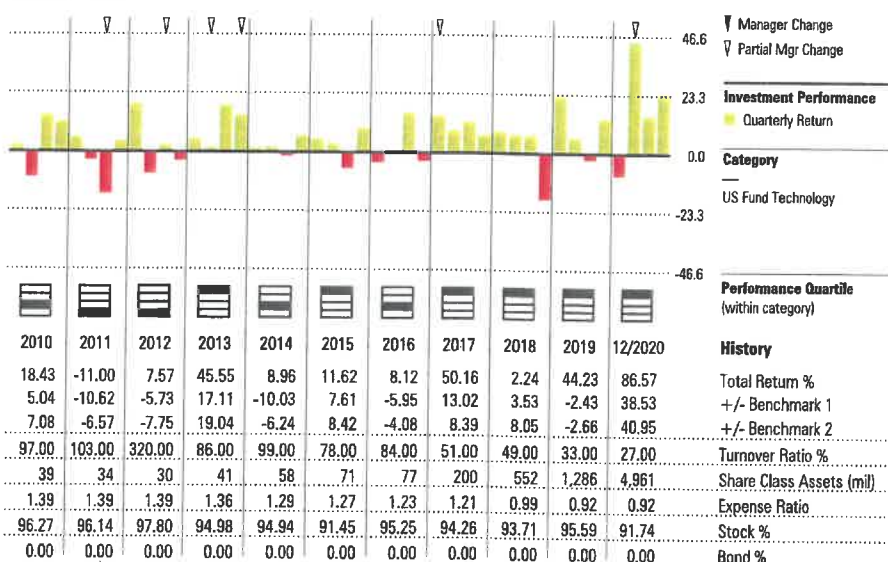

Investment Strategy

The investment seeks long-term capital appreciation. The fund invests at least 80% of its net assets in equity securities issued by U.S. and non-U.S. technology companies in all market capitalization ranges, selected for their rapid and sustainable growth potential from the development, advancement and use of technology. It may invest in both developed and emerging markets. The fund invests primarily in common stock but may also invest in preferred stock and convertible securities. It may also invest in Rule 144A securities, which are privately placed securities purchased by qualified institutional buyers.

Definitions and Disclosures

Timing of Performance Information

It is quite common to have inaccurate information regarding index returns as well as pricing and transaction data from custodians at the end of a reporting period. Often, these inaccuracies are cleared up within the first week or two of the following period. Our pension clients should be aware that quarter-end data reported within the first two weeks of a new quarter has a higher likelihood of inaccuracy. We do our best to weed out these problems, but there may be times when we feel it necessary to leave out the performance for the final month of a quarter.

Index Returns

We often have to use initial performance data directly from the issuers of an index and then update those returns after the 10th of each month using Portfolio Center Data.

Each portfolio is presented with an index or blend of indexes for performance comparison. Detailed similarities and differences between a style and a particular index are available upon request. No single index will precisely reflect a particular investment style; thus, the performance results of the indices chosen should be used for informational purposes only. In addition, the periods shown are for comparative purposes, and it should not be assumed that performance was identical in other periods not shown. These indices are unmanaged and do not include potential commissions, fees, or other transaction costs. You cannot invest directly in an index.

Total Blend: 40% Bond Blend and 60% Equity Blend below since inception 12/31/2015.

Bond Blend: 70% Barclays 1 to 3 year US Treasury Bond Index and 30% Barclays A+ 1 to 5 year Corporate Bond Index. Since 3/31/2019 70% Barclays A+ 1-5 Year Corporate, 30% Barclays UST 1-3 Year

Equity Blend: 75% Russell 3000, 20% MSCI EAFE, 5% US Wilshire REITS

Russell 3000: total return data including dividends

Morgan EAFE: gross returns reported

Wilshire REIT: non full cap data reported

Barclays Indices: are reported directly from Barclays

General Statement

It must be understood that market or economic conditions change often and that these changes, whether anticipated by the manager or having occurred unexpectedly, can have either a positive or a negative effect on the performance of a client's portfolio.

The performance results portrayed reflect the reinvestment of dividends when legal for the client to do so (otherwise, the dividends are paid out in cash), interest and all other cash present in the account for the time periods specified.

Gross of fee reports do not include advisory fees, trading costs, etc.

For Clients with Separate Managed Accounts, notify your advisor:

- 1) if your financial situation or investment objectives have changed,
- 2) any reasonable restrictions that need to be imposed or modified on the SMA account.

John Mitchell, J.D., Co-Founder, Portfolio Manager, Chairman of the Investment Committee

Mr. Mitchell had over fifteen years of investment experience prior to the formation of Mitchell, Vaught and Taylor, Inc., in 1996. Prior to forming MVT, Inc., Mr. Mitchell served as senior vice president and portfolio manager at The Chicago Corporation Asset Management Group, where he managed public pension funds. His experience includes work at an investment banking house as an investment advisor and a financial consultant to public pension funds in the Midwest. Mr. Mitchell's legal experience includes serving as a Special Assistant Attorney General for the State of Illinois and as a Special Assistant Corporation Counsel for the City of Chicago. Mr. Mitchell received his undergraduate degree from Bradley University and his J.D. from Lewis University. He has served as a member of the Securities Law Committee and as Chairman of the Financial & Investment Services Committee of the Chicago Bar Association.

Margie Mitchell, Fixed Income Portfolio Manager, Director

Ms. Mitchell joined the firm in 2007 after graduating *magna cum laude* from DePaul University with her bachelor's degree. She's is a registered investment advisor representative. Ms. Mitchell is also a shareholder and sits on the Board of Directors of MVT, Ms. Mitchell is our firm's Fixed Income Portfolio Manager, constructing portfolios and executing trades on a total client portfolio of about \$200 million for more than 30 pension funds. Ms. Mitchell is a Chicago native and still lives in the city with her family.

Dwight Ower, I.A.C.C.P, Director

Mr. Ower joined the firm in January, 2008, after retiring from his position as Deputy Chief of the Zion Police Department. During his police career of 30 years he served more than twenty as President of the Zion Police Pension Fund. Mr. Ower served as our Chief Compliance Officer (CCO) for 10 years. In 2021 Dwight was appointed to our board of directors and stepped back from day to day services to client accounts. His primary role now is to provide organizational direction, set policies and govern the MVT corporation.

James R. Nowicki, CPA, Vice President

Mr. Nowicki joined the firm in December, 2010, after retiring as the Chief Financial Officer and Treasurer of the City of Elgin, Illinois and previously was the Finance Director and Treasurer for the City of Moline and the Homewood-Flossmoor Park District. He has over 35 years of experience in local government finance. Mr. Nowicki's experience has allowed MVT, Inc. to expand its consulting services for institutional clients. Mr. Nowicki earned his Bachelor of Science degree in Accounting from Illinois State University. He is a Certified Public Accountant and a registered investment advisor representative.

Thomas Dugan, Vice President, Head Trader, Securities Analyst

Tom returned to MVT in December 2019 after a previous stint beginning in 2015. Tom has a long history working on trading floors for stocks bonds and commodities. He later worked with individual clients at Morgan Stanley. Tom completed his Bachelor's Degree at the University of Illinois, Urbana-Champaign and is licensed through FINRA with Series 3, 7 and 66.

Robert Osmanski, Portfolio Manager

Robert joined the firm in August 2018 with prior experience working in trading operations and risk management and recruiting/personnel staffing. Rob attended St. Norbert College for his B.S. Degree in Economics. He is a registered investment adviser representative.

WASHINGTON POLICE PENSION FUND
BOARD MEETING

City Hall Conference Room via Zoom
Monday, November 2, 2020 - **Minutes**

1. **Call to Order.** President Michael Hillary called the meeting to order at 8:30 a.m.

2. **Roll Call.**

Present

Michael Hillary, President
Greg Gordon, Secretary
James Fussner, Representative

Absent

Troi Westbrook, Assistant Secretary

Also, in attendance were Finance Director Joanie Baxter, Treasurer Ellen Dingedine, Accountant Jeanette Glueck, City Administrator Ray Forsythe, Dwight Ower and Tom Dugan with Mitchell, Vaught and Taylor and Jason Franken with Foster & Foster Actuaries.

3. **Review Agenda.** The agenda was reviewed and Hillary made a motion, seconded by Fussner to move the report by Foster and Foster for the Actuarial Study up to Item 4. Motion carried.

4. **Review of Actuarial Assumptions.** A call was made to Jason Franken with Foster & Foster to discuss the actuarial valuation results. Jason indicated that utilizing the interest rate assumption of 6.75% would result in a total employer contribution of \$679,478, an increase of \$45,388 as compared to the prior year. This increase is due to an increase in Employer Contributions due to increased Tier 2 benefits and an interest yield less than the assumption offset by gains associated with higher-than-expected inactive mortality. The total contribution offset by anticipated Personal Property Replacement Tax of \$22,000 results in a recommended tax levy of \$657,500. The Board asked about implications from the impending consolidation, and Jason indicated that a Board is being created which will replace the Department of Insurance. He doesn't know if an actuarial valuation will be needed for each community, but did indicate it may be advisable if the Consolidated Board is only providing the statutory minimum for funding. He did say that each community will maintain their own funding ratio and contribution requirement.

5. **Investment Reporting.** Dwight indicated that our portfolio was not quite back to where it was before COVID but there have been some gains this past quarter. This was positive following a 2nd quarter that was by far the worst on record due to high unemployment and closed businesses. There are no recommendations for changes at this time and it is anticipated that the market will continue to recover as we navigate through this pandemic and the impact it has had on our economy.

6. **Approval of August 3, 2020 Quarterly Meeting Minutes** Fussner made a motion seconded by Hillary to approve the minutes. Motion carried.

7. **Public Comment.** There were no public comments.

8. **Financial Reports.** Following review of the Financial Reports by Baxter, Fussner made a motion, seconded by Hillary to approve. Motion carried.

9. Action Items.

A. Ratify Investments.

A CD at IPAVA State Bank in the amount of \$138,040.70 matured on 8/23/20. It was redeemed and the proceeds were deposited into the IPAVA Money Market Account. Hillary made a motion, seconded by Fussner to ratify the investment. Roll call vote: Hillary – yes; Gordon – yes; Fussner – yes. Motion carried.

A CD at IPAVA State Bank in the amount of \$106,157.77 matured on 8/31/20. It was redeemed and the proceeds were deposited into the IPAVA Money Market Account. Gordon made a motion, seconded by Fussner to ratify the investment. Roll call vote: Hillary – yes; Gordon – yes; Fussner – yes. Motion carried.

It was noted that IPAVA State Bank is paying 2.07% on the Money Market Funds, which is higher than CDs are paying right now.

B. Investments Maturing before next quarter. None

C. Ratification of Pension Fund Expenses. None to approve.

D. Ratification of 3rd Quarter Investment Transactions with MVT. Hillary made a motion to approve and Fussner seconded. Roll call vote: Hillary – yes; Gordon – yes; Fussner – yes. Motion carried.

E. Ratification of annual pension increases effective Jan. 1, 2021. All increases were approved as follows:

Pension increases	Monthly Increase	New Monthly Amount	Motioned	Seconded	Hillary	Gordon	Fussner
David Densberger	\$100.88	\$3463.53	Gordon	Fussner	Yes	Yes	Yes
Mary Densberger	\$39.88	\$1369.30	Gordon	Fussner	Yes	Yes	Yes
James Fussner	\$129.44	\$4444.18	Hillary	Gordon	Yes	Yes	Yes
Rosalie Gerkin	\$143.51	\$4927.04	Gordon	Hillary	Yes	Yes	Yes
James Kuchenbecker	\$226.27	\$7768.52	Hillary	Fussner	Yes	Yes	Yes
David Stark	\$118.09	\$4054.39	Gordon	Hillary	Yes	Yes	Yes
Don Volk	\$206.50	\$7089.69	Fussner	Hillary	Yes	Yes	Yes
Mike Williams	\$94.98	\$3260.91	Hillary	Gordon	Yes	Yes	Yes
Chuck Woolley	\$129.21	\$4436.13	Fussner	Hillary	Yes	Yes	Yes

There are no increases for surviving spouse pensions of Marshall, Beard, Witmer and Libotte.

F. Acceptance of Annual Report. Gordon made a motion to accept the report, seconded by Hillary. Motion carried.

G. Recommendation for 2020 Police Pension Tax Levy based on Actuarial Report. The Board agreed to keep the assumptions the same as the prior year due to the impending consolidation. As such, the recommended tax levy with an assumed 6.75% interest rate is \$657,500 after reducing by the anticipated Personal Property Replacement Tax of \$22,000. Gordon made a motion, seconded by Fussner to recommend this tax levy to the City Council. Roll call vote: Hillary – yes; Gordon – yes; Fussner – yes. Motion carried.

H. Approval of Municipal Compliance Report for FYE 04/30/20. Report shows that percent funded remains unchanged at 59.3% with total assets of the Fund just over \$8 million.

Gordon made a motion to accept the report and Hillary seconded the motion. Motion carried.

- I. Approval of Annual Report per 40 ILCS 5/3-141 for FYE 4/30/20. Hillary made a motion, seconded by Gordon to approve the report. Motion carried.
- J. Approval of IPPFA membership for 2021. Annual membership dues amount is \$795.00. Gordon made a motion to approve. Hillary seconded the motion. Roll call vote: Hillary – yes; Gordon – yes; Fussner – yes. Motion carried.

10. **Discussion Items.**

- A. Pension Reform Update. Nothing to add from Jason’s remarks regarding actuarial report.
- B. Meeting Schedule for 2021. Meetings will continue at 8:30 on the 4th Monday of the quarter unless otherwise rescheduled. Dates in 2021 are as follows: January 25th, April 26th, July 26th, and October 25th.
- C. Training requirements and opportunities. The time has been extended to meet the training deadline due to COVID-19.

11. **Adjournment.** Hillary made a motion to adjourn, seconded by Gordon. Roll call vote: Hillary – yes; Gordon – yes; Fussner – yes. Motion carried. Meeting was adjourned at 9:45 a.m.

Respectfully Submitted,

Greg Gordon, Secretary

**CITY OF WASHINGTON
POLICE PENSION FUND**

TO: Police Pension Board
FROM: Joanie Baxter, Finance Director 
DATE: January 22, 2021
SUBJECT: Police Pension Fund Actuarial Report

I have attached the final Actuarial Report as completed by Foster & Foster that needs to be accepted by the Police Pension Board. The recommended tax levy as determined in November was included in the 2020 tax levy approved by the City Council.

Keeping the interest rate assumption at 6.75% results in an employer total contribution of \$679,478, an increase of \$45,388 compared to the prior year. **A tax levy of \$657,478, rounded to \$657,500 was included after reduction for anticipated Personal Property Replacement Tax of \$22,000.**

Re: Actuarial Valuation Report (including GASB Statements No. 67 and No. 68) – City of Washington Police Pension Fund

Dear Ms. Baxter:

We are pleased to present to the City this report of the annual actuarial valuation of the City of Washington Police Pension Fund. Included are the related results for GASB Statements No. 67 and No. 68. The funding valuation was performed to determine whether the assets and contributions are sufficient to provide the prescribed benefits and to develop the appropriate funding requirements for the applicable plan year. The calculation of the liability for GASB results was performed for the purpose of satisfying the requirements of GASB Statements No. 67 and No. 68. Use of the results for other purposes may not be applicable and could produce significantly different results.

The valuation has been conducted in accordance with generally accepted actuarial principles and practices, including the applicable Actuarial Standards of Practice as issued by the Actuarial Standards Board, and reflects laws and regulations issued to date pursuant to the provisions of Article 3, Illinois Pension Code, as well as applicable federal laws and regulations. In our opinion, the assumptions used in this valuation, as adopted by the Board of Trustees, represent reasonable expectations of anticipated plan experience. Future actuarial measurements may differ significantly from the current measurements presented in this report for a variety of reasons including: changes in applicable laws, changes in plan provisions, changes in assumptions, or plan experience differing from expectations. Due to the limited scope of the valuation, we did not perform an analysis of the potential range of such future measurements.

In conducting the valuation, we have relied on personnel, plan design, and asset information supplied by the City, financial reports prepared by the custodian bank and the actuarial assumptions and methods described in the Actuarial Assumptions section of this report. While we cannot verify the accuracy of all this information, the supplied information was reviewed for consistency and reasonableness. As a result of this review, we have no reason to doubt the substantial accuracy of the information and believe that it has produced appropriate results. This information, along with any adjustments or modifications, is summarized in various sections of this report.

The total pension liability, net pension liability, and certain sensitivity information shown in the GASB results are based on an actuarial valuation performed as of the valuation date.

The undersigned are familiar with the immediate and long-term aspects of pension valuations and meet the Qualification Standards of the American Academy of Actuaries necessary to render the actuarial opinions contained herein. All of the sections of this report are considered an integral part of the actuarial opinions.

To our knowledge, no associate of Foster & Foster, Inc. working on valuations of the program has any direct financial interest or indirect material interest in the City of Washington, nor does anyone at Foster & Foster, Inc. act as a member of the Board of Trustees of the City of Washington Police Pension Fund. Thus, there is no relationship existing that might affect our capacity to prepare and certify this actuarial report.

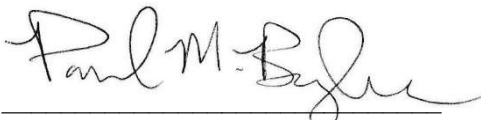

If there are any questions, concerns, or comments about any of the items contained in this report, please contact us at 630-620-0200.

Respectfully submitted,

Foster & Foster, Inc.

SUMMARY OF REPORT

The regular annual actuarial valuation of the City of Washington Police Pension Fund, performed as of May 1, 2020, has been completed and the results are presented in this Report. The contribution amounts set forth herein are applicable to the plan/fiscal year ended April 30, 2022.

The contribution requirements, compared with those set forth in the May 1, 2019 actuarial report, are as follows:

Valuation Date Applicable to Fiscal Year Ending	<u>5/1/2020</u> <u>4/30/2022</u>	<u>5/1/2019</u> <u>4/30/2021</u>
Total Recommended Contribution	\$830,238	\$780,072
% of Projected Annual Payroll	54.6%	53.0%
Member Contributions (Est.)	150,760	145,982
% of Projected Annual Payroll	9.9%	9.9%
City Recommended Contribution	679,478	634,090
% of Projected Annual Payroll	44.7%	43.1%

As you can see, the Total Recommended Contribution shows an increase when compared to the results determined in the May 1, 2019 actuarial valuation report. The increase is attributable to Tier 2 benefit changes and the natural increase in the amortization payment due to the payroll growth assumption.

Plan experience was unfavorable overall on the basis of the plan's actuarial assumptions. The primary source of unfavorable experience was an investment return of 3.54% (Actuarial Asset Basis) which fell short of the 6.75% assumption. This loss was offset in part by a gain associated with higher than expected inactive mortality.

CHANGES SINCE PRIOR VALUATION

Plan Changes Since Prior Valuation

As a result of Public Act 101-0610, signed into law on December 18, 2019, the following updates were made to the Tier 2 benefits:

- The surviving spouse benefit for non-line of duty death was updated to mirror Tier 1 benefits, whereby Tier 2 surviving spouses will now receive 54% of final average salary, even prior to achieving vesting at 10 years of service.
- The pensionable salary cap increased retroactive to 2011 to alleviate safe harbor concerns, updating the annual adjustment to be CPI-U instead of 50% of CPI-U. The 3% annual growth cap remains in place.
- The final average salary was increased from averaging the highest consecutive 96 of the last 120 months of salary to averaging the highest consecutive 48 of the last 60 months of salary.

Actuarial Assumption/Method Changes Since Prior Valuation

There were no assumption or method changes since the prior valuation.

ACTUARIAL ASSUMPTIONS AND METHODS

Interest Rate	6.75% per year compounded annually, net of investment related expenses.
Mortality Rate	<p><i>Active Lives:</i> PubS-2010 Employee mortality, projected 5 years past the valuation date with Scale MP-2019. 10% of active deaths are assumed to be in the line of duty.</p> <p><i>Inactive Lives:</i> PubS-2010 Healthy Retiree mortality, projected 5 years past the valuation date with Scale MP-2019.</p> <p><i>Beneficiaries:</i> PubS-2010 Survivor mortality, projected 5 years past the valuation date with Scale MP-2019.</p> <p><i>Disabled Lives:</i> PubS-2010 Disabled mortality, projected 5 years past the valuation date with Scale MP-2019.</p> <p>The mortality assumptions sufficiently accommodate anticipated future mortality improvements.</p>
Retirement Age	See table later in this section. This is based on a 2017 experience study performed for the State of Illinois Department of Insurance.
Disability Rate	See table later in this section. 60% of the disabilities are assumed to be in the line of duty. This is based on a 2017 experience study performed for the State of Illinois Department of Insurance.
Termination Rate	See table later in this section. This is based on a 2017 experience study performed for the State of Illinois Department of Insurance.
Inflation	2.50%.
Cost-of-Living Adjustment	<p><u>Tier 1:</u> 3.00% per year after age 55. Those that retire prior to age 55 receive an increase of 1/12 of 3.00% for each full month since benefit commencement upon reaching age 55.</p> <p><u>Tier 2:</u> 1.25% per year after the later of attainment of age 60 or first anniversary of retirement.</p>

Salary Increases

See table below. This is based on a 2017 experience study performed for the State of Illinois Department of Insurance.

Salary Scale	
Service	Rate
0	11.00%
1	10.75%
2	8.75%
3	8.50%
4	7.00%
5	6.25%
6	5.25%
7	4.25%
8 - 16	4.00%
17 - 32	3.75%
32+	3.50%

Marital Status

80% of Members are assumed to be married.

Spouse's Age

Males are assumed to be three years older than females.

Funding Method

Entry Age Normal Cost Method.

Actuarial Asset Method

Investment gains and losses are smoothed over a 5-year period.

Funding Policy Amortization Method

The UAAL is amortized according to a Level Percentage of Payroll method over a period ending in 2040. The initial amortization amount is 100% of the Accrued Liability less the Actuarial Value of Assets.

Payroll Growth

3.50% per year.

Administrative Expenses

Expenses paid out of the fund other than investment-related expenses are assumed to be equal to those paid in the previous year.

Decrement Tables

% Terminating During the Year		% Becoming Disabled During the Year		% Retiring During the Year (Tier 1)		% Retiring During the Year (Tier 2)

		60	1.150%				

GLOSSARY

Total Annual Payroll is the projected annual rate of pay for the fiscal year following the valuation date of all covered members.

Present Value of Benefits is the single sum value on the valuation date of all future benefits to be paid to current Members, Retirees, Beneficiaries, Disability Retirees and Vested Terminations.

Normal (Current Year's) Cost is the current year's cost for benefits yet to be funded.

Unfunded Accrued Liability is a liability which arises when a pension plan is initially established or improved and such establishment or improvement is applicable to all years of past service.

Total Recommended Contribution is equal to the Normal Cost plus an amount sufficient to amortize the Unfunded Accrued Liability over a period ending in 2040. The recommended amount is adjusted for interest according to the timing of contributions during the year.

Entry Age Normal Cost Method - Under this method, the normal cost is the sum of the individual normal costs for all active participants. For an active participant, the normal cost is the participant's normal cost accrual rate, multiplied by the participant's current compensation.

- (a) The normal cost accrual rate equals:
 - (i) the present value of future benefits for the participant, determined as of the participant's entry age, divided by
 - (ii) the present value of the compensation expected to be paid to the participant for each year of the participant's anticipated future service, determined as of the participant's entry age.
- (b) In calculating the present value of future compensation, the salary scale is applied both retrospectively and prospectively to estimate compensation in years prior to and subsequent to the valuation year based on the compensation used for the valuation.
- (c) The accrued liability is the sum of the individual accrued liabilities for all participants and beneficiaries. A participant's accrued liability equals the present value, at the participant's attained age, of future benefits less the present value at the participant's attained age of the individual normal costs payable in the future. A beneficiary's accrued liability equals the present value, at the beneficiary's attained age, of future benefits. The unfunded accrued liability equals the total accrued liability less the actuarial value of assets.
- (d) Under this method, the entry age used for each active participant is the participant's age at the time he or she would have commenced participation if the plan had always been in existence under current terms, or the age as of which he or she first earns service credits for purposes of benefit accrual under the current terms of the plan.

DISCUSSION OF RISK

ASOP No. 51, Assessment and Disclosure of Risk Associated with Measuring Pension Obligations and Determining Pension Plan Contributions, states that the actuary should identify risks that, in the actuary's professional judgment, may reasonably be anticipated to significantly affect the plan's future financial condition.

Throughout this report, actuarial results are determined under various assumption scenarios. These results are based on the premise that all future plan experience will align with the plan's actuarial assumptions; however, there is no guarantee that actual plan experience will align with the plan's assumptions. It is possible that actual plan experience will differ from anticipated experience in an unfavorable manner that will negatively impact the plan's funded position.

Below are examples of ways in which plan experience can deviate from assumptions and the potential impact of that deviation. Typically, this results in an actuarial gain or loss representing the current-year financial impact on the plan's unfunded liability of the experience differing from assumptions; this gain or loss is amortized over a period of time determined by the plan's amortization method. When assumptions are selected that adequately reflect plan experience, gains and losses typically offset one another in the long term, resulting in a relatively low impact on the plan's contribution requirements associated with plan experience. When assumptions are too optimistic, losses can accumulate over time and the plan's amortization payment could potentially grow to an unmanageable level.

- Investment Return: When the rate of return on the Actuarial Value of Assets falls short of the assumption, this produces a loss representing assumed investment earnings that were not realized. Further, it is unlikely that the plan will experience a scenario that matches the assumed return in each year as capital markets can be volatile from year to year. Therefore, contribution amounts can vary in the future.
- Salary Increases: When a plan participant experiences a salary increase that was greater than assumed, this produces a loss representing the cost of an increase in anticipated plan benefits for the participant as compared to the previous year. The total gain or loss associated with salary increases for the plan is the sum of salary gains and losses for all active participants.
- Payroll Growth: The plan's payroll growth assumption, if one is used, causes a predictable annual increase in the plan's amortization payment in order to produce an amortization payment that remains constant as a percentage of payroll if all assumptions are realized. If payroll does not increase according to the plan's payroll growth assumption, the plan's amortization payment can increase significantly as a percentage of payroll even if all assumptions other than the payroll growth assumption are realized.
- Demographic Assumptions: Actuarial results take into account various potential events that could happen to a plan participant, such as retirement, termination, disability, and death. Each of these potential events is assigned a liability based on the likelihood of the event and the financial consequence of the event for the plan. Accordingly, actuarial liabilities reflect a blend of financial consequences associated with various possible outcomes (such as retirement at one of various possible ages). Once the outcome is known (e.g. the participant retires) the liability is adjusted to reflect the known outcome. This adjustment produces a gain or loss depending on whether the outcome was more or less favorable than other outcomes that could have occurred.

- **Contribution Risk:** This risk results from the potential that actual employer contributions may deviate from actuarially determined contributions, which are determined in accordance with the Board’s funding policy. The funding policy is intended to result in contribution requirements that if paid when due, will result in a reasonable expectation that assets will accumulate to be sufficient to pay plan benefits when due. Contribution deficits, particularly large deficits and those that occur repeatedly, increase future contribution requirements and put the plan at risk for not being able to pay plan benefits when due.

Impact of Plan Maturity on Risk

For newer pension plans, most of the participants and associated liabilities are related to active members who have not yet reached retirement age. As pension plans continue in operation and active members reach retirement ages, liabilities begin to shift from being primarily related to active members to being shared amongst active and retired members. Plan maturity is a measure of the extent to which this shift has occurred. It is important to understand that plan maturity can have an impact on risk tolerance and the overall risk characteristics of the plan. For example, plans with a large amount of retired liability do not have as long of a time horizon to recover from losses (such as losses on investments due to lower than expected investment returns) as plans where the majority of the liability is attributable to active members. For this reason, less tolerance for investment risk may be warranted for highly mature plans with a substantial inactive liability. Similarly, mature plans paying substantial retirement benefits resulting in a small positive or net negative cash flow can be more sensitive to near term investment volatility, particularly if the size of the fund is shrinking, which can result in less assets being available for investment in the market.

To assist with determining the maturity of the plan, we have provided some relevant metrics in the table following titled “Plan Maturity Measures and Other Risk Metrics”. Highlights of this information are discussed below:

- The Support Ratio, determined as the ratio of active to inactive members, has decreased from 133.3% on May 1, 2017 to 131.3% on May 1, 2020, indicating that the plan has been maturing.
- The Accrued Liability Ratio, determined as the ratio of the Inactive Accrued Liability, which is the liability associated with members who are no longer employed but are due a benefit from the plan, to the Total Accrued Liability, is 63.9%. With a plan of this maturity, losses due to lower than expected investment returns or demographic factors will need to be made up for over a shorter time horizon than would be needed for a less mature plan.
- The Funded Ratio, determined as the ratio of the Actuarial Value of Assets to the Total Accrued Liability, has stayed approximately the same from May 1, 2017 to May 1, 2020
- The Net Cash Flow Ratio, determined as the ratio of the Net Cash Flow (contributions minus benefit payments and administrative expenses) to the Market Value of Assets, stayed approximately the same from May 1, 2017 to May 1, 2020. The current Net Cash Flow Ratio of 1.8% indicates that contributions are generally covering the plan's benefit payments and administrative expenses.

It is important to note that the actuary has identified the risks above as the most significant risks based on the characteristics of the plan and the nature of the project, however, it is not an exhaustive list of potential risks that could be considered. Additional advanced modeling, as well as the identification of additional risks, can be provided at the request of the audience addressed on page 2 of this report.

ACTUARIAL ASSET VALUATION

April 30, 2020

Actuarial Assets for funding purposes are developed by recognizing the total actuarial investment gain or loss for each Plan Year over a five year period. In the first year, 20% of the gain or loss is recognized. In the second year 40%, in the third year 60%, in the fourth year 80%, and in the fifth year 100% of the gain or loss is recognized. The actuarial investment gain or loss is defined as the actual return on investments minus the actuarial assumed investment return. Actuarial Assets shall not be less than 80% nor greater than 120% of the Market Value of Assets.

Plan Year Ending	Gain/(Loss)	Gains/(Losses) Not Yet Recognized

SUMMARY OF CURRENT PLAN

Article 3 Pension Fund

The Plan is established and administered as prescribed by “Article 3. Police Pension Fund – Municipalities 500,000 and Under” of the Illinois Pension Code.

Plan Administration

The Plan is a single employer defined benefit pension plan administered by a Board of Trustees comprised of:

- a.) Two members appointed by the Municipality,
- b.) Two active Members of the Police Department elected by the Membership, and
- c.) One retired Member of the Police Department elected by the Membership.

Credited Service

Complete years of service as a sworn police officer employed by the Municipality.

Normal Retirement

Date

Tier 1: Age 50 and 20 years of Credited Service.

Tier 2: Age 55 with 10 years of Credited Service.

Benefit

Tier 1: 50% of annual salary attached to rank on last day of service plus 2.50% of annual salary for each year of service over 20 years, up to a maximum of 75% of salary. The minimum monthly benefit is \$1,000 per month.

Tier 2: 2.50% per year of service times the average salary for the 48 consecutive months of service within the last 60 months of service in which the total salary was the highest prior to retirement times the number of years of service, up to a maximum of 75% of average salary. The minimum monthly benefit is \$1,000 per month.

For Tier 2 participants, the salary is capped at a rate of \$106,800 as of 2011, indexed annually at a rate of CPI-U, but not to exceed 3.00%.

Form of Benefit

Tier 1: For married retirees, an annuity payable for the life of the Member; upon the death of the member, 100% of the Member’s benefit payable to the spouse until death. For unmarried retirees, the normal form is a Single Life Annuity.

Tier 2: Same as above, but with 66 2/3% of benefit continued to spouse.

Early Retirement

Date	Tier 1: Age 60 and 8 years of Credited Service. Tier 2: Age 50 with 10 years of Credited Service.
Benefit	Tier 1: Normal Retirement benefit with no minimum. Tier 2: Normal Retirement benefit, reduced 6.00% each year before age 55, with no minimum benefit.
Form of Benefit	Same as Normal Retirement

Disability Benefit

Eligibility	Total and permanent as determined by the Board of Trustees.
Benefit Amount	A maximum of: <ul style="list-style-type: none">a.) 65% of salary attached to the rank held by Member on last day of service, and;b.) The monthly retirement pension that the Member is entitled to receive if he or she retired immediately.

For non-service connected disabilities, a benefit of 50% of salary attached to rank held by Member on last day of service.

Cost-of-Living Adjustment

Tier 1:

Retirees: An annual increase equal to 3.00% per year after age 55. Those that retire prior to age 55 receive an increase of 1/12 of 3.00% for each full month since benefit commencement upon reaching age 55.

Disabled Retirees: An annual increase equal to 3.00% per year of the original benefit amount beginning at age 60. Those that become disabled prior to age 60 receive an increase of 3.00% of the original benefit amount for each year since benefit commencement upon reaching age 60.

Tier 2: An annual increase each January 1 equal to 3.00% per year or one-half of the annual unadjusted percentage increase in the consumer price index-u for the 12 months ending with the September preceding each November 1, whichever is less, of the original pension after the attainment of age 60 or first anniversary of pension start date whichever is later.

Pre-Retirement Death Benefit

Service Incurred	100% of salary attached to rank held by Member on last day of service.
Non-Service Incurred	A maximum of: <ul style="list-style-type: none">a.) 54% of salary attached to the rank held by Member on last day of service, and;b.) The monthly retirement pension earned by the deceased Member at the time of death, regardless of whether death occurs before or after age 50.

For non-service deaths with less than 10 years of service, a refund of member contributions is provided.

Vesting (Termination)

Vesting Service Requirement	Tier 1: 8 years. Tier 2: 10 years.
Non-Vested Benefit	Refund of Member Contributions.
Vested Benefit	Either the termination benefit, payable upon reaching age 60 (55 for Tier 2), provided contributions are not withdrawn, or a refund of member contributions. The termination benefit is 2.50% of annual salary held in the year prior to termination (8-year final average salary for Tier 2) times creditable service.

Contributions

Employee	9.91% of Salary.
Municipality	Remaining amount necessary for payment of Normal (current year's) Cost and amortization of the accrued past service liability.

FINAL PENSION EXPENSE AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS
OF RESOURCES RELATED TO PENSIONS
YEAR-END APRIL 30, 2020

For the year ended April 30, 2020, the Sponsor will recognize a pension expense of \$783,835.

On April 30, 2020, the Sponsor reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	208,720	271,135
Changes of assumptions	729,315	80,736
Net difference between projected and actual earnings on pension plan investments	274,663	0
Employer contributions after the measurement date	632,190	0
Total	\$1,844,888	\$351,871

The outcome of the Deferred Outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date has been recognized as a reduction of the Net Pension Liability in the year ended 4/30/2020.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year-ended April 30:

2021	\$254,588
2022	\$150,938
2023	\$161,769
2024	\$144,845
2025	\$40,848
Thereafter	\$107,839

PRELIMINARY PENSION EXPENSE AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED
INFLOWS OF RESOURCES RELATED TO PENSIONS
YEAR-END APRIL 30, 2021

For the year ended April 30, 2021, the Sponsor will recognize a pension expense of \$1,050,239.

On April 30, 2021, the Sponsor reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	178,691	222,073
Changes of assumptions	590,783	67,280
Net difference between projected and actual earnings on pension plan investments	556,407	0
Employer contributions after the measurement date	TBD	0
Total	TBD	\$289,353

The outcome of the Deferred Outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended 4/30/2021.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year-ended April 30:

2022	\$258,154
2023	\$268,985
2024	\$252,061
2025	\$148,064

SCHEDULE OF CONTRIBUTIONS

Plan Year-End	Actuarially Determined Contribution	Contributions in Relation to the Actuarially Determined Contributions	Contribution Deficiency (Excess)	Covered Payroll	Contributions as a Percentage of Covered Payroll
04/30/2020	550,231	632,190	(81,959)	1,521,288	41.56%
04/30/2019	550,691	553,041	(2,350)	1,473,074	37.54%

The following assumptions were used to determine the Actuarially Determined Contribution for the plan year ending April 30, 2020:

Calculation Timing	The Actuarially Determined Contribution is calculated using a May 1, 2018 valuation date.
Interest Rate	6.75%
Mortality Rate	RP-2000 Combined Healthy Mortality with a blue collar adjustment, projected to the valuation date with Scale BB.
Disabled Mortality Rate	RP-2000 Disabled Retiree Mortality, projected to the valuation date with Scale BB.
Assumptions	All other assumptions and methods used for determining the Actuarially Determined Contribution can be found in the May 1, 2018 Actuarial Valuation Report for the City of Washington Police Pension Fund prepared by Foster & Foster Actuaries and Consultants.

SCHEDULE OF INVESTMENT RETURNS

For the year ended April 30, 2020, the annual money-weighted return on Pension Plan investments, net of pension plan investment expense, was 5.82 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Plan Year-End	Annual Money-Weighted Rate of Return Net of Investment Expense
04/30/2020	5.82%
04/30/2019	4.88%

ASSUMPTIONS – GASB PENSION LIABILITY AND PENSION EXPENSE

The GASB 67 Pension Liability for Plan reporting as of April 30, 2020 and Preliminary GASB 68 Pension Expense for the City's May 1, 2020 - April 30, 2021 reporting period were determined as follows:

Valuation Date	May 1, 2020
Measurement Date	April 30, 2020
Discount Rate	6.75%
Inflation	2.50%
Salary Increases	Service-based rates
Other Assumptions	A summary of complete assumptions can be found in the accompanying Actuarial Valuation as of May 1, 2020 for the City of Washington Police Pension Fund prepared by Foster & Foster Actuaries and Consultants.

The GASB 68 Pension Liability and Final Pension Expense for the current City reporting period were determined as follows:

Valuation Date	May 1, 2019
Measurement Date	April 30, 2019
GASB 68 Expense Measurement Period	May 1, 2019 - April 30, 2019
Reporting Period	May 1, 2019 - April 30, 2020
Discount Rate	6.75%
Inflation	2.50%
Salary Increases	Service-based rates
Other Assumptions	A summary of complete assumptions can be found in the Actuarial Valuation as of May 1, 2019 for the City of Washington Police Pension Fund prepared by Foster & Foster Actuaries and Consultants.

The GASB 68 Total Pension Liability and Final GASB 68 Pension Expense reflect the following assumption changes:

- The mortality rates were updated to reflect the PubS-2010 tables.

NOTES TO THE FINANCIAL STATEMENTS

Support for Long-Term Expected Rate of Return

The Long-Term Expected Rate of Return on Pension Plan investments can be determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of Pension Plan investment expenses and inflation) are developed for each major asset class.

These ranges are combined to produce the Long-Term Expected Rate of Return by weighting the expected future real rates of return by target asset allocation percentage and by adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the Pension Plan’s target asset allocation adopted as of April 30, 2020, as provided by MVT Invest, are summarized in the following table:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return ¹
Fixed Income	5.00%	0.50%
Corporate Investment Grade	20.00%	0.75%
Domestic Equities	33.75%	6.60%
International Developed	11.25%	6.00%
Cash and Equivalents	30.00%	0.00%
Total	100.00%	

¹ Based on historical return data.

Inflation rate of investment advisor N/A

Concentrations

The Plan did not hold investments in any one organization that represent 5 percent or more of the Pension Plan’s fiduciary net position.

Discount Rate

The Discount Rate used to measure the Total Pension Liability was 6.75 percent.

The projection of cash flows used to determine the Discount Rate assumed that Plan Member contributions will be made at the current contribution rate and that Sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the Member rate. Based on those assumptions, the Pension Plan’s Fiduciary Net Position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the Long-Term Expected Rate of Return on Pension Plan investments (6.75 percent) was applied to all periods of projected benefit payments to determine the Total Pension Liability.

For the purpose of this valuation, the expected rate of return on pension plan investments is 6.75 percent. The municipal bond rate is 2.85 percent (based on the daily rate closest to, but not later than the measurement date of the S&P Municipal Bond 20 Year High Grade Rate Index). The resulting single discount rate is 6.75 percent.

SUMMARY OF CURRENT PLAN

Article 3 Pension Fund

The Plan is established and administered as prescribed by “Article 3. Police Pension Fund – Municipalities 500,000 and Under” of the Illinois Pension Code.

Plan Administration

The Plan is a single employer defined benefit pension plan administered by a Board of Trustees comprised of:

- a.) Two members appointed by the Municipality,
- b.) Two active members of the Police Department elected by the Membership.
- c.) One retired member of the Police Department elected by the Membership.

Benefits Provided

The Plan provides retirement, termination, disability and death benefits.

A summary of the benefit provisions can be found in the accompanying Actuarial Valuation as of May 1, 2020 for the City of Washington Police Pension Fund prepared by Foster & Foster Actuaries and Consultants.

The valuation reflects benefit changes noted on the page “Changes Since Prior Valuation”.
