Mayoral Communications / Requested Actions Mayor Manier shared that an open house regarding the amphitheater is scheduled for January 22, 2025 from 6:00-7:30 p.m., at Five Points. All parties will be available to answer questions.

Council Member Blundy brought forth discussion regarding Item B on the Consent Agenda regarding the approval of the TIF Pay Request #7 - Square Restaurant and Brewpub, 140 Washington Square. He noted the original date was scheduled for more than one year ago and feels it is a breach of contract. He noted the missed sales tax revenue for the past year as well as the developer not paying the full property tax. He asked for the payment to be deferred until the brewpub is open. Planning and Development Director Oliphant explained that the payments are part of the agreement; however, the agreement does say it was to be completed by 2023. He noted that Council has the ability change the offer but the agreement says the City has to pay up to \$305,000. Council Member Blundy wants to use this a leverage to complete the project. Planning and Zoning Director Oliphant is not sure if there is language to defer payments. Council Member Blundy asked to table the item until we decide if it can be deferred. Mayor Manier explained that the delay was caused by delays in electrical materials, then Hurricane Helene derailed the items. He further shared that another company was waiting for the same part and they found it on eBay. Mayor Manier shared that the developer is waiting for 24/7 heating in order to finish the floors. Council Member Stevens noted a previous amendment that took place in August of 2022 with no other amendments made. She noted that Article 11, refers to the commencement of operations. She further noted that language refers to the date operations cease on the development site the amount payable to the TIF General Account is \$675,000 and 100% of the TIF interest incentive paid to the developer. She noted that tonight's item is only regarding the incentive. She doesn't feel we have followed the contract and questioned if Council should have done another amendment. Council Member McIntyre asked for clarification, noting the original agreement is \$305,000 and this request for \$51,642.14 is a required payment. He wonders if they are being asked to reevaluate the terms of the contract. He feels if we use the original agreement, we should approve this because it was already agreed upon. Council Member Adams noted the contract terms had been discussed when the initial delays happened and everyone knows we are still under the original contract that includes the

amendment. No one has said a word until they asked for payment to move forward. Mayor Manier noted that Council was asked if they would like to rework the contract but there was not a desire by a majority of Council to do so. It was noted that Administrator Snider was not involved in the contract negotiations. Council Member Stevens feels that since there has not been any operations, and this specifically mentions the TIF Interest Incentive, she has an issue with proceeding. Council Member McIntyre agreed with Council Member Stevens but if they are not going to amend the opening date, we are still under the current contract, we know work is still being done and we would still be subject to this payment. Council Member Blundy would like to defer the payment until they open to hold them accountable.

Council Member Blundy motioned to table Consent Agenda Item B until they can figure out if they can defer the brewpub payment; Council Member Stevens seconded.

Motion failed by roll call vote.

Council Member Stevens asked the City Attorney if the City is contractually obligated to pay for the developer's interest costs that were incurred after the development contract's original completion date. The City Attorney shared that he is not prepared to answer the question. Mayor Manier noted that the developer came to our community with a \$9 million project and even though the delays have been frustrating, the brewpub owners are also disappointed that they are not open. Planning and Development Director Oliphant shared that even if the project was completed at the milestone date in 2023, the specific clause regarding the payment of interest contains language relating to a date of December 31, 2025 and the city would still be subject to the payment of that even if the project was completed on time.

Council Member Adams motioned to make a payment of \$51,642.14 for the interest owed to the contractor; Council Member McIntyre seconded.

Motion passed by roll call vote.

**City Administrator
Communication
Council Report**

Planning and Development Director Oliphant opened the floor for questions regarding the Council Report. None was provided.

**Purchase Authorization
- New City Aerial
Orthophoto**

City Engineer Carr explained that the aerial photography used in every map uses this ortho photo as the background. This is a purchase authorization to have Eagle View view do another flight to update the image. He further explained that Washington has seen a lot of changes in the past two years and this would provide updates. \$15,620 will be split between this current fiscal year and next fiscal year and come out of a combination of the general, water and sewer funds.

Council Member Adams motioned to approve; Council Member Smith seconded.

Engineer Carr explained that the public can view these images using City aerial maps but we do not provide the original due to purchasing agreements. He further explained that the county updates their maps every four or five years and it will be another two years for the county to update theirs. Blundy asked if there is a benefit to stick with the county. He further noted that there would only be a little price savings if we waited for the county and this will show all the new roads and developments that have occurred in the past two years.

Mayor Manier shared that the open house is open to the public and it is not a City meeting. Council Member Stevens noted that this is not a presentation and residents will be able to walk around. Mayor Manier further explained that all the parties involved will have information at their tables and have an opportunity to share information. There will be tables for the City, architect, foundation, and feasibility study. Council Members must be aware of the Open Meetings Act but they will be able to individually move around the room.

**Second Reading Ord:
3566 (1-25) Residential
Cemeteries Prohibition
Zoning Code Text
Amendment**

Planning and Development Director Oliphant presented the following ordinance for consideration:

Synopsis: Adoption of this ordinance would prohibit cemeteries from being located on properties in residential zoning districts that have principal residential structures.

Title: First Reading Ordinance Approving Residential Cemeteries Prohibition Zoning Code Text Amendment

Council Member Adams motioned to approve the ordinance; Council Member McIntyre seconded.

**Council Member
Comments**

Council Member Stevens addressed previous public comments provided by the Amdalls. She noted that their comments suggested the donor would consider giving \$12 million to Five

Points for putting his wife's name on the building. She asked if anyone from City Council followed up on the suggestion. Mayor Manier shared that it is not up to the City and he feels it is up to the foundation to make that decision.

Council Member Brownfield thanked public works and the police department for their work during the recent snow. He expressed concern that council members try to hold money from projects or allow people to do their jobs. Council tried to hold money from IDOT when working on BUS24. He appreciates that the item was passed for the brewpub because they want it done as well. He noted challenges when working on old buildings and shared that the other owners on the Square support this.

Council Member Smith and Planning and Zoning Director Oliphant discussed the fire escape issues on the Square. Mr. Oliphant shared that Marlene Miller wants something different than the developer they are private parties and the City has not seen any plans.

Council Member McIntyre also expressed appreciation for the police department and public works. He has noticed that social media is difficult and distracting and there are several Facebook sites regarding our town. He wondered about establishing rules or providing educational information to Council regarding social media. He expressed concern with seeing misinformation on "Washington Strong" and "Washington Strong 2.0". He feels there is a negative public perception and noted that some posts are made anonymously.

Mayor Manier noted that the City can't control other Facebook pages and doesn't feel there is a lot we can do.

Council Member Martin would like further discussion and noted that council members cannot comment because three or more members commenting would violate the Open Meetings Act. Mayor Manier shared that IML has a great information regarding these issues.

Executive Session At 7:11 p.m. Council Member Smith motioned to move into executive session: for the discussion of minutes of meetings lawfully closed under this Act, whether for purposes of approval by the body of the minutes or semi-annual review of the minutes as mandated by Section 2.06. 5 ILCS 120/2(c)(21); Council Member Brownfield seconded.
